

Memorandum

DATE December 23, 2021
TO Members, Joint Corporations, Elections and Political Subdivisions
Interim Committee
FROM Michael Swank, Senior Fiscal Analyst
SUBJECT **Submissions and Update for December 28, 2021 Meeting**

On December 15, 2021, the Legislative Service Office (LSO) distributed a letter to the Legislature and a message to the county clerks seeking additional input and feedback on the revised statewide, base House District plan compiled by the Committee. You can use the following link to access this revised plan:

[Statewide Plan Compilation 1-Revised**](#)

** The plan contains districts that fall outside the +/-5% deviation from the ideal district size, leading to greater than 10% range outlined in the Committee's Redistricting Principles.

LSO requested feedback and suggested revisions by December 21, 2021, for consideration by the Committee. As of this writing, LSO has received feedback from one region, Region 5 (Johnson, Sheridan counties) with no suggested changes or adjustments to the statewide plan.

Additionally, the Committee requested review of the South Cheyenne area in Laramie County on its potential to support a majority-minority House District. A separate analysis and summary accompany this follow-up memorandum.

Finally, LSO has received additional submissions for the Committee to consider in revising the statewide compilation plan. Please consider the following submissions:

1. [Region 10, Submission 2 – Representative Sommers](#) (*alternative fourteen (14) House District plan for the six-county Region 9 (Carbon, Sweetwater) and Region 10 (Lincoln, Sublette, Teton, Uinta), along with the Rock River voting district/precinct of Region 2 (Albany County)*)
2. [Region 6, Submission 5 – Senator Driskill](#) (*ten (10) districts for Region 6, Region 7, with an alternate proposal for population share between Region 1, Laramie County, and Goshen County*)

Please let me know if you have questions.
Respectfully,
